#### **Tip for luminous skin and effective make-up:**

Preparing for your big day begins months prior, and your skincare should be an important part of this preparation. Approximately 6 months prior to your wedding day we recommend monthly facials and a consistent homecare regime with a skincare range most suited to your skin's needs. A qualified Beauty Therapist will be able to analyse your skin type to assist with making this choice. Ultimately your makeup will only look as good as your skin underneath will allow. By preparing your skin to ensure it is hydrated and smooth prior to the day makes the makeup application a lot easier. We also recommend drinking plenty of water to keep the skin hydrated alongside a balanced diet to ensure your skin receives the nutrition it requires to perform as desired on the day.

#### **FAQ's**

Q: *Is my makeup done first or last?*

A: The hair and make-up team will work closely together to ensure the hair and makeup is completed efficiently. The Bride will ideally have her hair completed first and makeup last, leaving this as close to the wedding ceremony time as possible. Bridesmaids will have their hair and makeup completed to fit in with the time schedule and around the Brides request.

Q: *Why do I have to get my hair done so early? Is my hair going to last the day?*

A: Your hair needs to be completed 2 hours prior to your wedding to allow time for your dress to be fitted, any pre-photos and time to relax prior to the ceremony. Your hair stylist will take the utmost care and skill utilising expert products to ensure your hair will last the day to its best ability. Please note, depending on the time of year and temperature/weather, your stylist will recommend certain hair styles as being more appropriate and longer lasting than others – such as extra product and more sleek up-styles on very windy and humid days.

Q: *Can I have my whole Bridal party in at the salon at once?*

A: The salon can comfortably fit a wedding party of six people, with a maximum of two manicure stations, three make up stations and four hair stations. For large wedding parties we recommend our in-room service to allow the stylists to work with more ease and comfort in a timely manner.

\* For large group bookings for manicures, pedicures, facials and massages please see the Spa wumurdaylin treatment menu. The spa is located walking distance from the salon with 11 treatment rooms (note, hair, makeup, spray tans and Shellac are not available at the spa – salon only service) advanced bookings necessary. Q: *Can a hair stylist come to my hotel room on the day?*

A: Providing you have confirmed an 'in-room' booking for yourself prior to the day to ensure a hair stylist is booked for your appointment then the salon can certainly come to you. All in-room appointments require a credit card deposit and additional charge of \$30 per person/per service to an in-salon price for the extra service provided to you in the comfort of your own accommodation. \*Note: 48 hours notice must be given to the salon for extra guests to be added to an in-room service.

**Note to all wedding parties:**

Please complete your Salon Booking Form and Payment Authority Form, and return to your Wedding Planner to assist in confirming your booking requests efficiently. Note, your Wedding Planner will review these requests and reply once they have been confirmed by the salon – these forms are only requests not confirmations.

All guests requesting salon appointments are required to provide a credit card number for security of the booking. All in-room bookings require pre-payment once confirmed. No charge will be taken off this card until the day of appointments unless requested for in-salon treatments. Note, all bookings cancelled within 24 hours incur a 50% cancellation fee.

Many thanks for your booking enquiry and we look forward to making your Hamilton Island wedding day as magical as possible.
